

# Markdown is Powerful

Prakash Dahal

# Markdown is Powerful

- Markup language to format text
- Usages:
  - Taking Notes
  - Writing Blogs
  - Documentation
  - Static site
  - Book ... so on

# Heading

## Different Headings from 1-6

- # heading1
- ## heading2
- ### heading3
- #### heading4
- ##### heading5
- ##### heading6
- ##### heading7 *Does not work :D*

# Lists

## Order List

1. apple
2. ball
3. cat

## Unorder List

- - apple
- - ball
- - cat

# Emphasis

## Bold

- I am `**Bold**`

I am **Bold**

## Italic

- I am `*Italic*` or I am `_Italic_`

I am *Italic*

# Links

## Sites Link

- `[NameForLink](url)`

Google

## Display image

- ``

# Codes

## Inline Code

- Use `"` for inline code

Here I am

## Block Code

- Use `'''` for block code

This is normal text block of code

- Block code with syntax highlighter

```
function abc() {  
  console.log("Hello");  
}
```

# Table

## Create Table

```
Heading1 | Heading 2|  
|---|---|  
body1.1 | Body1.2|  
body2.1 | Body2.2|
```

Heading1	Heading 2
body1.1	Body1.2
body2.1	Body2.2

# Thank You
